

MEDICAL POLICY

MEDICAL POLICY DETAILS	
Medical Policy Title	Patient Lifts (e.g., Hoyer, Saralift, Seat Lift, Chair Mechanisms, and Ceiling Lifts)
Policy Number	1.01.08
Category	Contract Clarification
Original Effective Date	07/02/99
Committee Approval Date	05/23/02, 06/26/03, 06/24/04, 06/23/05, 06/22/06, 06/28/07, 06/26/08, 06/25/09
Current Effective Date	07/20/23
Archived Date	06/24/10
Archive Review Date	06/24/11, 06/28/12, 06/27/13, 06/26/14, 06/25/15, 06/22/16, 6/22/17, 6/28/18, 6/27/19, 6/25/20, 06/24/21, 06/16/22, 07/20/23
Product Disclaimer	<ul style="list-style-type: none"> If a product excludes coverage for a service, it is not covered, and medical policy criteria do not apply. If a commercial product (including an Essential Plan or Child Health Plus product), medical policy criteria apply to the benefit. If a Medicaid product covers a specific service, and there are no New York State Medicaid guidelines (eMedNY) criteria, medical policy criteria apply to the benefit. If a Medicare product (including Medicare HMO-Dual Special Needs Program (DSNP) product) covers a specific service, and there is no national or local Medicare coverage decision for the service, medical policy criteria apply to the benefit. If a Medicare HMO-Dual Special Needs Program (DSNP) product DOES NOT cover a specific service, please refer to the Medicaid Product coverage line.

POLICY STATEMENT

- I. Based upon our criteria and assessment of the peer-reviewed literature, *patient lifts* are considered **medically appropriate** as durable medical equipment (DME) in the following situations:
- Periodic movement is necessary to effect improvement or to arrest or retard deterioration in the patient's condition; **AND**
 - ALL** of the following criteria are met:
 - Transfer between bed and chair, wheelchair or commode requires the assistance of more than one person;
 - Without the use of the lift, the patient would be confined to bed; and
 - An adequately trained person, other than the patient, is available to help operate the lift.
 - A motorized lift (e.g., Sara lift) is appropriate for coverage only if a hydraulic lift (e.g., Hoyer lift) is inadequate to meet the special medical needs of the patient.
- II. Based upon our criteria and assessment of the peer-reviewed literature, *seat lift chair mechanisms* are considered **medically appropriate** as durable medical equipment in **ONE** of the following situations:
- The patient has severe arthritis of the hip or knee; **OR**
 - ALL** of the following criteria are met:
 - The patient has a severe neuromuscular disease; and
 - All appropriate therapeutic modalities to enable the patient to transfer from a chair to a standing position (e.g., medication, physical therapy) have been tried and failed; and
 - The patient is completely incapable of standing up from a regular armchair or any chair in his/her home; and
 - Once standing the patient is able to ambulate.
- III. Based upon our criteria and assessment of the peer-reviewed literature, the following patient lifts are **ineligible for coverage** because the devices do not meet the criteria for durable medical equipment:

Medical Policy: PATIENT LIFTS (e.g., HOYER, SARALIFT, SEAT LIFT, CHAIR MECHANISMS, and CEILING LIFTS)

Policy Number: 1.01.08

Page: 2 of 3

- A. Bath lifts (bathroom or toilet);
 - B. Ceiling lifts (patient lifts mounted on tracks attached to the ceiling);
 - C. Platform lifts;
 - D. Stair gliders;
 - E. Stairway chair/stair lifts;
 - F. Powered wheelchair lifts (provides access to stairways or car trunks); and
 - G. Van lifts (used to a lift wheelchair into a truck or van).
- IV. Based upon our criteria and assessment of the peer-reviewed literature, patient lifts/seat lift chair mechanisms containing nonstandard features (e.g., convenience or luxury features such as combination scale and lift) where there exists a reasonably feasible and medically appropriate alternative standard pattern of care are considered **not medically necessary** or **ineligible for coverage** based upon the member's subscriber contract.

Refer to Corporate Medical Policy #1.01.00 Durable Medical Equipment – Standard and Non-Standard

POLICY GUIDELINES

- I. Coverage of durable medical equipment is contract dependent.
- II. Nonstandard features that are presumptively nonmedical in nature and used primarily and customarily for a nonmedical purpose, even though the item may have some remote medically related use, will not be considered "medical equipment" and are **ineligible for coverage**.

DESCRIPTION

Patient Lifts

Patient lifts or similar transfer devices are assistive devices that enable the movement and positioning of an immobilized patient to and from a sitting and/or supine position. The Hoyer lift is a manual device that uses hydraulics. The Sara lift is motorized and portable.

Seat Lift Chair Mechanisms

A seat lift chair is a lounge chair that has a motorized seat mechanism which, when activated, lifts the body from a sitting to a standing position. The seat also can lower the body from a standing to sitting position. It is an assistive device for patients who are able to ambulate once they are in a standing position.

Bathroom Lifts

A bathroom lift is a device with which the patient can be transferred from the toilet/tub to another seat. Some items may be placed in a tub for lifting the patient in and out of the tub but may not necessarily be attached to the toilet, ceiling, floor, or wall of the bathroom.

Ceiling Lifts

A ceiling lift (Zero Lifting) is a device that incorporates a lift or walking sling mounted on tracks that are installed into the ceiling of the home/facility and allow for transfer of a patient.

CODES

- *Eligibility for reimbursement is based upon the benefits set forth in the member's subscriber contract.*
- ***CODES MAY NOT BE COVERED UNDER ALL CIRCUMSTANCES. PLEASE READ THE POLICY AND GUIDELINES STATEMENTS CAREFULLY.***
- *Codes may not be all inclusive as the AMA and CMS code updates may occur more frequently than policy updates.*
- *Code Key: Experimental/Investigational = (E/I), Not medically necessary/ appropriate = (NMN).*
